

# Race-ineering Summer Camps

## Las Vegas' New STEM Program

**Pole Position Raceway** has partnered with the leader in STEM education for young people, **Engineering for Kids!**

We're fusing the excitement of racing with the fascination of science, technology, engineering and math (S.T.E.M.) to build the perfect combination of learning and fun. In addition to making laps, participants will also spend time building and testing technology, and learning first-hand about a variety of engineering concepts. Each week features a different, custom designed, age appropriate, building challenge.

# \$499

/PER KID PER WEEK
